George,

Thank you for the reminders and I apologize for the delay. I've gotten info for the queries you have but not yet up-to-date on the Trio wells (i.e., unauthorized injection).

We've been busy preparing our State plan for the EPA due tomorrow and that has taken priority over our resources. We will be able to work on our backlogs after tomorrow hopefully!

Best regards,

Jerry

Hi Jerry,

This is simply a reminder from our last phone conversation because I know you are very busy.

- Please note that the forms that you submitted (see attached) are fine, were useful for our information purposes. However, the formal submission for my record keeping requires your signature. Please include this when the 7520 Forms are mailed to me.
- Also, as we discussed over the phone, the questions that I raised informally were because of the “Other” categories that showed data. I am not in a pressing need at this time to know the basis of some of these, as you will reply when you have time.
- Please consider for future 7520 Forms, including a brief explanation to accompany within the “Other” box that says “(Specify)” which may suffice. I know from experience that this question will come to me, so I am preparing.

take care,

George

George Robin (robin.george@epa.gov)
